

transmission services to conduct, not later than October 1, 2001, ongoing education and outreach programs that publicize the availability of 711 access to TRS, in a manner reasonably designed to reach the largest number of consumers possible. To supplement and refresh the record initiated with the March FNPRM, at the Forum we will seek to further identify the guidelines and procedures necessary to fund a coordinated nationwide outreach program. In addition, information will be shared to facilitate ongoing efforts to comply with the August Report and Order mandating 711 outreach. While time constraints limit the number of individuals who may make in-person presentations at the Forum, we encourage all interested individuals to submit written *ex parte* comments, by October 20, 2001, identifying proposed national outreach guidelines and procedures. Written *ex parte* comments will aid us in our decision-making with regard to identifying the best means of achieving nationwide outreach on TRS.

SUPPLEMENTARY INFORMATION:

Proposed Project

2001-2003 Medical Expenditure Panel Survey—Insurance Component (MEPS-IC).

The MEPS-IC, an annual survey of the characteristics of employer-sponsored health insurance, was first conducted by AHRQ in 1997 for the calendar year 1996. The survey has since been conducted annually for calendar years 1997 through 2000. AHRQ proposes to continue this annual survey of establishments for calendar years 2001 through 2003. The survey date for calendar year 2001 will be

collected in 2002. Likewise, calendar year 2002 data will be collected in 2003 and calendar year 2003 data in 2004. The survey will collect information from both public and private employers. This survey will be conducted for AHRQ by the Bureau of the Census using a sample comprised of:

1. Employers selected from Census Bureau lists of private sector employers and governments (known as the List Sample), and

2. Employers identified by respondents to the MEPS-Household Component (MEPS-HC) for the same calendar year (known as the Household Sample).

The MEPS-HC is an annual household survey designed to collect information concerning health care expenditures and related data for individuals. The size of the Household sample varies from year to year with the size of the MEPS-HC.

Data to be collected from each employer will include a description of the business (e.g., size, industry) and descriptions of health insurance plans available, plan enrollments, total plan costs and costs to employees.

Data Confidentiality Provisions

The MEPS-IC List Sample data confidentiality is protected under Section 9 of Title 13, United States Code (the U.S. Census Bureau statute) as well as section 924(c) of the Public Health Service Act (42 U.S.C. 299c-3(c)). The MEPS-IC Household Sample data confidentiality is protected under Sections 308(d) and 924(c) of the Public Health Service Act (42 U.S.C. 242m and 42 U.S.C. 299c-3(c)).

Section 308(d) is the confidentiality statute of the National Center for Health Statistics, is applicable because the MEPS-HC sample is derived from respondents of an earlier NCHS survey.

Section 924(c) is the confidentiality statute of AHRQ. All data products listed below must fully comply with the data confidentiality statute under which their raw data was collected.

Data Products

Data will be produced in three forms: (1) Files derived from the Household Sample, which can be linked back to other information from household respondents in the MEPS-HC, will be available to researchers at the AHRQ Research Data Center; (2) files containing employer information from the List Sample will be available for use by researchers at the Census Bureau's Research Data Centers; and (3) a large compendium of tables of estimates, also based on List Sample data, will be produced and made available on the
